

P2P Loans secured by any token

The Problem

- Few ERC-20 tokens can be used as loan collateral in pools
- No NFTs can be used as loan collateral in pools

The Solution

- Any token can be used for peer-to-peer loans
- ERC20, ERC1155 & ERC721 (NFTs), as well as all future standards

The Product

• PWN = Marketplace for P2P loans secured by *any* token

The Business

- \$6 billion attainable market w/ 100%+ growth per year
- Proof-of-concept version live at try.pwn.finance
- Production release in Q3 2021

The Raise

• Raising \$5 million to support rapid scaling
